

## *Legal Aid & Advocacy*

**AFSC Arizona** focuses on sentencing reform and legislation changes at the state level. The AFSC is conducting a report on sentencing patterns in Arizona and collecting qualitative and quantitative information from a wide-range of incarcerated individuals, which will be released as a three-part series (pre-incarceration, sentences and experiences inside, and release concerns). The AFSC is also dedicated to sharing the stories and experiences of individuals directly impacted by incarceration because the AFSC feels those directly impacted by the current criminal punishment system are central to this discussion, and must be leaders in the movement to end mass incarceration.

**Arizona Justice Project:** to seek justice for the innocent and the wrongfully imprisoned – the marginalized and forgotten of Arizona’s criminal justice system.

## *Sentencing Reform & Advocacy*

**FAMM (Families Against Mandatory Minimums)** is a national organization whose mission is to create a more fair and effective justice system that respects our American values of individual accountability and dignity while keeping our communities safe. FAMM’s greatest asset has always been the stories of its members. By sharing the impact of unjust sentencing and prison policies on incarcerated individuals, their families, and their communities, FAMM has helped create urgency around the issue and made the problem feel real to the policymakers who have to be moved to make meaningful change. This two-pronged approach — public education and targeted advocacy — is core to FAMM’s success to date and will remain critical to its work as the organization expands its organizing efforts nationally. FAMM works in Arizona to reform sentencing policies.
