

## *Legal Aid*

**Idaho Innocence Project:** Our mission is to correct and prevent wrongful convictions through research, education, and litigation. We also assist other innocence organizations with DNA investigations. Since 2005, we have helped start Innocence Projects in Ireland and France, worked with 27 Innocence organizations in the US, and established the International Innocence program that investigates DNA cases outside the United States.

## *Diversion*

**Valley County Juvenile Diversion Program:** The primary purpose of the Valley County Diversion Program is to offer a community based juvenile diversion program in accordance with Idaho Code 20-511. This “Restorative Justice” process will create a healthier, safer, involved and empowered community while assisting offenders to develop as responsible citizens. Through the formation of partnerships with individuals, volunteers, agencies and other resources in our community, a “Hearing Panel” will provide timely and relevant solutions and consequences, including restitution, in a manner which is respectful and empathetic to offenders, their family, the victim and our community.
