

Re-entry Resources

Reaching Out From Within is decades ahead of others in recognizing the need to create reentry programs and rehabilitation programs in prison, in order for incarcerated individuals to have the courage to transform themselves inside of prison and to become contributing members of our communities outside of prison. Because 98% of inmates will return to their communities, the curriculum focuses on helping them to learn together how to become successful returning citizens who are prepared to succeed outside the walls.

Legal Aid

The Midwest Innocence Project's mission is to educate about, advocate for, and obtain and support the exoneration and release of wrongfully convicted people in the Midwest. Recent studies conservatively estimate that between 2% and 5% of all inmates in America are innocent of the crimes for which they were convicted, with some estimates reaching up to 7%. This means that somewhere between 2,000 and 7,000 moms, dads, sons, and daughters in Missouri, Kansas, Iowa, Nebraska, and Arkansas are locked behind bars this very moment for crimes they did not commit.
