

Reform & Advocacy

Nevada CURE: We are a support- and advocacy group of people whose life has been negatively affected by Nevada's criminal justice system. We offer compassionate caring and information to help prisoners, their families, and friends navigate "the system". We are an active voice working to educate other about the need for more effective criminal justice policies, procedures, and programs. NV Cure members are entitled to state and national newsletter and other mail outs.

Legal Aid

Rocky Mountain Innocence Center: No other organization in the states of Utah, Nevada and Wyoming provides innocence investigation and litigation services - and RMIC provides them entirely for free.
